

Upskilling and Career Readiness

As part of its effort to prepare youth for a rapidly changing labor market, the Foundation has programs specifically designed to help Emirati and Arab youth become more competitive, adaptable, and ready for the future. Under this pillar, the Foundation equips youth with high-quality education and skill development opportunities through innovative and technology-driven approaches. These programs, which serve the diverse needs of youth, come in a variety of forms, including training programs, mentoring, and professional certifications.
