

Our Programs

Our Programs

The Foundation works with implementing partners to co-design high-quality and market-driven programs and initiatives to empower and upskill Emirati and Arab youth. In 2022, the Foundation continued its commitment to working on its existing programs and launched three new programs that focus on in-demand technical and transferable skills and work integrated learning.

The Foundation's programs fall under two main pillars:

Upskilling and Career Readiness:

- ▶ Nomu
 - ▶ TechUp
 - ▶ Siraj
 - ▶ Project Hama²
- ▶ Young Thinkers Program

Strengthening Access to Quality Higher Education

- ▶ The Abdulla Al Ghurair Hub for Digital Teaching and Learning
- ▶ The University Consortium for Quality Online Learning (UCQOL)
- ▶ Work Integrated Learning
- ▶ The Al Ghurair scholarship programs
 - ▶ Al Ghurair STEM Scholars Program
 - ▶ Al Ghurair Open Learning Scholars Program

² Launched under the leadership of the Government Development and the Future Office at the UAE Prime Minister's Office, Project Hama focuses on enhancing the career-readiness of Emirati female military recruits. The Foundation supports Project Hama by providing capacity building workshops to nominated trainers who support workshop delivery directly to the recruits.
