

The hub has embarked on a journey to make STEM programs accessible at scale while transforming the student learning experience to be more contextual, engaging, and adaptive. To play a part in creating millions of jobs over the next decade or two, we are designing new programs and reconfiguring existing programs around the needs of the masses.

Dr. Issam Srour
Director, Abdulla Al Ghurair Hub for Digital Teaching and Learning

AGF champions educational equity, striving to narrow the digital education gap and promote economic development for Arabs.

Consequently, [The Abdulla Al Ghurair Hub for Digital Teaching and Learning](#) is transforming education to ensure Arab youth have access to high-quality education.

The Hub's state-of-the-art e-learning studio with edtech leadership is a 2023 milestone that promises top-tier online courses & programs. Get a glimpse of the studio [here](#).

Online resources, such as the studio, empower students to excel in digital education landscape, overcoming traditional barriers that restrict their access to higher opportunities

The Hub's e-learning studio is the epicenter for online course creation at MSFEA & AUB and serves the greater university community in the region.

By leveraging the studio to best serve learners, increase accessibility, and reduce inequity in online learning, the Hub:

- Improves student learning and impact by producing educational content (Interviews, tutorials, and more)
- Promotes interactive teaching through innovative methods like visual effects
- Enhances accessibility by digitizing courses, dubbing lectures, and recording podcasts.

To date, the Hub has:

Launched **7** online programs

Digitally enhanced **27** courses

Produced **49** online courses

Enrolled **471** students
(**38%** are first generation)

Moving forward, the Hub will utilize resources such as the studio to increase the quality and efficiency of digital content production and expand its impact.
